## Form 405 Investment Option Change

### ABOUT THIS FORM

Complete this form to change an account's investment option. You can also change your investment option online at my529.org.

### IMPORTANT INFORMATION ABOUT YOUR INVESTMENT OPTION CHANGE

- Changing the investment option for a single my529 account will reallocate your entire current balance to a new investment option. All new contributions will be invested according to the new investment option selected.
- You may choose only one investment option per account. If you want a portion of your account balance to remain in the existing investment option, you must open a new account for the new investment option and transfer the desired amount to that account using the Internal Transfer form (Form 400).
- 529 rules allow for two investment option changes per beneficiary per calendar year.
- If you have multiple accounts for the same beneficiary and you are changing investment options on more than one account, you must complete a separate Investment Option Change form (Form 405) for each account. my529 will accept investment option changes for an account owner with multiple accounts for the same beneficiary if they are received together on the same day.
- Requests in good order will usually be completed within three business days after my529 receives this form.
- If you request to cancel this investment option change in a timely manner, my529 will make all reasonable efforts to stop the processing of the change; however, my529 is not responsible for any consequences of processing the request.
