1. Money invested in my529's underlying FDIC-insured accounts is held in trust by my529 at Sallie Mae Bank and U.S. Bank. Contributions to and earnings on the FDIC-insured accounts for each my529 account owner are apportioned between the banks according to the following percentages: Sallie Mae Bank (90 percent) and U.S. Bank (10 percent). Money in the FDIC-insured accounts is insured by the FDIC on a pass-through basis to each account owner up to \$250,000 at each bank. The amount of FDIC insurance provided to an account owner at each bank is based on the total of (1), the proportional value of an account owner's investment in the FDIC-insured accounts at each bank, plus (2), the value of the account owner's other personal bank accounts (if any) held at each bank, as determined by the banks and by FDIC regulations.

2. An investment allocation to this fund may not exceed 25 percent in the account. For the Customized Age-Based investment option, this cap applies to the allocation for each age bracket.
