

Kickstart your newborn's education savings

my529's incentiFive Program can help

incentiFive is designed to help Utah families get an early start on an education savings habit. Here's how it works: Families who qualify contribute at least \$100 every year for the first five years to their child's my529 account. In return, my529 will contribute \$100 annually for the first four years and \$529 in the fifth year. If all conditions are met, incentiFive can result in a total of \$929 in incentive contributions from my529.
